AFRICA AND THE DIASPORA: HISTORY, POLITICS, CULTURE

Kongo in the Age of Empire, 1860–1913

The Breakdown of a Moral Order

Jelmer Vos

"Exhaustively documented and carefully argued, this is a Kongo-centered view of how the country entered into the Portuguese domains, but also how its elite guided that entrance with their own agenda. An insightful view of the onset of colonialism in Central Africa."

—John K. Thornton, Boston University

Jelmer Vos is an assistant professor of history at Old Dominion University.

A richly documented history of the arrival of rubber traders, new Christian missionaries, and the Portuguese colonial state in the Kongo realm, told from the perspective of the kingdom's inhabitants. A case study of colonialism in Africa from economic, religious, and political perspectives, it examines the participation of African elites in colonial rule.
